Preamble

An Act to provide for setting out the practical regime of right to information for citizens to secure access to information under the control of public authorities, in order to promote transparency and accountability in the working of every public authority, the constitution of a Central Information Commission and State Information Commissions and for matters connected therewith or incidental thereto.

WHEREAS the Constitution of India has established democratic Republic;

AND WHEREAS democracy requires an informed citizenry and transparency of Information which are vital to its functioning and also to contain corruption and to hold Governments and their instrumentalities accountable to the governed;

AND WHEREAS revelation of information in actual practice is likely to conflict with other public interests including efficient operations of the Governments, optimum use of limited fiscal resources and the preservation of confidentiality of sensitive information;

AND WHEREAS it is necessary to harmonize these conflicting interests while preserving the paramountcy of the democratic ideal;

NOW, THEREFORE, it is expedient to provide for furnishing certain information to citizens who desire to have it.

Chapter - 1

Right to Information

The Right to Information Act recognizes that the sharing of information by Government with citizens is healthy and beneficial to the functioning of democracy. Secrecy should become a thing of the past. Under the RTI Act, no citizen can now be denied information which an elected representative such as MLAs and MPs can get from the Government. The new law covers not only public authorities at the Centre but also all the States (except Jammu and Kashmir) and local Self-Government bodies. This means that citizens in every village, district, town or city across India can demand access to information held by public authorities across the country. It also applies to bodies owned, controlled or substantially financed by the Government directly or indirectly.

The main objective of the Right to Information Act, 2005 is to ensure transparency and accountability in the working of every Public Authority in the country and to eliminate the scourge of corruption. The Act mandates a legal-institutional framework for setting out a practical regime of right to information for every citizen to secure access to information held by or under the control of Public Authorities. This is a path-breaking legislation that enables the country to break away from the colonial legacy of secrecy, which is anathema to a democratic system. Setting up of Information Commissions at the Central and State levels to ensure the effective implementation of the right to information regime in the country is one of the key provisions of the Act.

Chapter – 4

Administration of the Right to Information Act

4.1 Effective Suo-moto disclosure of information:

Right to Information Act under Section 4 mandates every public authority for pro-active disclosure of information. The information which is required to be disclosed under this section includes particulars of the organization including functions and duties, rules, regulations, instructions, manuals, and records followed for the discharge of functions, directory of officers and officials alongwith monthly remuneration being paid to them, details of annual budget including expenditure incurred, details of schemes/programmes being handled, its beneficiaries and concession or subsidy being provided etc. The particulars of State Assistant Public Officers/State Public Information Officers/First Appellate Authority are also required to be disclosed. It is a statutory requirement which every public authority is bound to meet. Further it is not sufficient to publish the above information once but every public authority is obliged to update such information periodically. As far as possible the information should be updated immediately as and when any development takes place. The information may be posted on the web site facilitating the citizens to access to the information without approaching the public authority. This exercise as per requirement of RTI Act, 2005 was to be completed within one hundred and twenty days from its commencement but a number of public authorities are yet to take effective steps as contemplated under Section 4 of the Act.

4.2 Maintenance and retrieval of records.

Section 4 (1) (a) of the Right to Information Act 2005 lays importance on maintenance of records by the public authorities duly catalogued and indexed in a manner and form which facilitates access within a reasonable

time. In many cases the disposal of requests asking for copies of documents, it was experienced that the State Public Information Officers failed to retrieve the documents requested because of absence of a proper record keeping system. Record keeping is an area neglected in most of the offices of Government and Public Sector Undertakings. Government may launch a special drive in this direction so that the record available in the offices of the public authorities are properly cataloged, indexed and stored in a manner that facilitate easy retrieval of information. The Act also emphasizes upon computerization of the records and access through the net-work.

4.3 Provisions of adequate staff and budget for furnishing the information.

The RTI Act, 2005 can successfully create a practical regime for information sharing with the citizen if there is an effective delivery mechanism in public authorities especially at the district and block levels. Some of the public authorities at the district or the block level they do not have any basic infrastructure like photocopiers, computers etc. to provide information to the public. Since the contingency is also limited, the option to get photocopies from the market is also not possible. In the absence of infrastructure hand written illegible information is sometimes furnished to the information seekers. These difficulties had been constantly voiced in the interaction which the Commission had with the members of the public, State Public Information Officers and other stake holders apart from being raised in the public hearings before the Commission. Therefore, the State Government may earmark a certain percentage of budget for implementation of the RTI related issues. Adequate provisions be made for purchase of stationery, office equipments like photocopiers, computer etc. in the office of designated officers.

4.4 Cost and Fee rules under the RTI Act.

Section 27 of the Right to Information Act, 2005 read with Sections 6 (1), 7(1) and 7 (5) of the Act provide for prescribing fee for submission of application and the cost for providing the information. Accordingly, the Haryana Government had notified the Haryana Right to Information Rules, 2005 on 28th October 2005 wherein the application fee was prescribed @ Rs. 50/- and additional fee @ Rs. 10/- per page. The State Government after reconsidering the matter and by repealing the Haryana Right to Information Rules, 2005 notified Haryana Right to Information Rules, 2009 on 21st December 2009 wherein the additional fee to be charged under sub Section 5 of Section 7 of the Act was reduced from Rs. 10/- to Rs. 2/- per page. Copy of the rules notified on 21st December 2009 is appended at Annexure 'A'.

4.5. Appeal Procedure

In exercise of powers conferred under Section 27 read with sub-Section 10 of Section 19 of the Right to Information Act, 2005, the State Government laid down the procedure for filing appeals, procedure for deciding appeal, mode of serving notices, appearance of appellant/complainant before the Commission etc. by notifying Haryana Right to Information Rules, 2009 on 21st December 2009 by repealing the earlier rules notified on 28th October 2005.

Chapter - 5

Monitoring and Reporting

- 5.1 Section 25 of the Right to Information Act, 2005 provides that State Information Commission at the end of each year shall prepare a report on the implementation of the provisions of this Act for the year and forward a copy to the appropriate Government. The report is required to be laid before the State Legislature thereafter. Section 25 (2) of the Act further mandates that each Ministry or Department or Public Under takings shall in relation to the public authorities within their jurisdiction collect and provide such information to the State Information Commission as is required to prepare the Annual Report by the Commission. Accordingly the Commission vide letter dated 9.3.2010 directed the Administrative Secretaries, Heads of Departments, Divisional Commissioners, Deputy Commissioners of the Districts in the State, Managing Directions of Boards, Corporations and public sectors undertakings, Registrar, Punjab & Haryana High Court, Secretary Haryana Vidhan Sabha were requested to collect the required details and furnish it to the Commission for the preparation of the Annual report from 1.11.2007 to 31.12.2008 and 1.1.2009 to 31.12.2009. Statistical analysis of the administration of the Act basis on the data received by the Commission from the various public authorities arranged in alphabetical orders of Administrative Secretaries, Heads of Departments, Boards Corporations, Public Undertakings, Commissioners of Divisions and Deputy Commissioners separately is annexed as Annexure 'B' and 'BB'. A list of major Departments and public authorities who did not responded to the Communications from the Commission dated 9.3.2010, 28.9.2010 and 23.11.2010 is placed at Annexure 'C' and 'CC'.
- 5.2 As per available information during the period from 1.11.2007 to 31.12.2008, a total of 16858 applications were received by the reporting public authorities. The access to information was withheld on account of

exemption provisions in 90 and 95 cases under Section 8 and 9 respectively of the RTI Act, 2005. Thus access to information was denied in about 1.09 percentage of total cases. A total sum of Rs. 2204951/- was deposited as prescribed application fee and additional fee by the applicants during the period under report.

However, during the period from 1.1.2009 to 31.12.2009, a total of 20757 applications were received by the reporting public authorities. The access to information was withheld on account of exemption provisions in 106 and 60 cases under Section 8 and 9 respectively of the RTI Act, 2005. Thus access to information was denied in about 0.79 percentage of total cases. A total sum of Rs. 1785330 was deposited as prescribed application fee and additional fee by the applications during the period under report.

These figure shows that the public authorities have by and large provided the information in majority of cases to the RTI applicants.

5.3 Suggestions received from the Public Authorities towards improved implementation of the Act.

For bringing improvement in the implementation of the RTI Act, 2005, certain suggestion have been received from various public authorities while submitting reports sought under Section 25(2) of the Act. These are as under:-

- (i) The designated State Public Information Officer should be a senior level officer who could take action against the erring officer/official committing delay in supplying the information.
- (ii) Additional fee should be enhanced to discourage the information seeker for frivolous information.
- (iii) Numerous, frivolous and voluminous complaints are received from RTI applicants which not only diverts the attention of the staff but also resources in collecting such information which do not serve any public interest.

- (iv) To reduce frivolous applications and to ensure that only genuine information seekers invoke the provision of the RTI Act it is suggested that only one information be allowed in one RTI application.
- (v) The BPL applicants are seeking information which does not relate to them. Generally the BPL applicants are seeking the entire information on the functioning of the public authority which is apparently a misuse of the Act. In such cases there should be some mechanism in the Act so that the BPL persons are actually benefited for their cause. The time limit of 30 days should be increased in respect of the information pertaining to more than 5 years old.
- (vi) The State Public Information Officers/First Public Authorities should be refreshed from time to time by imparting trainings.
- (vii) The penalty should be imposed upon the public authority with the stipulation to recover it from the erring official responsible for the delay in supplying the information.
- (viii) Third party information should not be disclosed.

Chapter - 6

In some cases the aggrieved parties have preferred writs against the orders of the Commission in Hon'ble Punjab & Haryana High Court at Chandigarh. The Commission in its statutory capacity under the provisions of the Right to Information Act, 2005 has thus decided not to defend such writs. In such situations a letter to the Registrar (Writ) and Registrar (Judicial) including the Advocate General, Haryana as well is being sent.

The Government of India, Ministry of Personnel, Public Grievances and Pensions, Department of personnel & Training, New Delhi vide letter dated 20th November 2008 launched a new initiative on "Strengthening, Capacity Building and Awareness Generation for Effective Implementation of the Right to Information Act under the Centrally Sponsored Plan Scheme under which it was agreed to sanction Rs. 30.00 lacs for IT enablement. Accordingly the State Information Commission, Haryana on 5th December 2008 submitted a project proposal for providing computers and peripherals, up-gradation of existing website for file tracking system, application status through SMS, digitization of record, providing video conferencing facility. The Government of India released Rs. 21.00 lacs, equal to 70% of the total sanctioned

amount. The activities could not be completed for want of release of remaining 30% amount.

6.9 Propagation under RTI

The Government of India also sanctioned Rs. 3.50 lacs on 2nd January 2009 under this Scheme for organizing Workshops, forums, conferences etc. The State Information Commission till the end of reporting period organized two Seminars-cum-Workshops with these funds by spending Rs. 1,53,325/- each in Kurukshetra University, Kurukshetra and CCS Haryana Agriculture University at Hisar on 29th June 2009 and 13th July 2009 respectively. Total 425 State Assistant Public Information Officers/State Public Information Officers and the First Appellate Authorities of Ambala and Hisar Divisions were the invitees in the Workshop.

Chapter - 7

Creation of awareness about the Act.

7.1 Section 26 of the Right to Information Act directs the State Government to create awareness among the public by developing and organizing educational programmes to advance the understanding of the public, in particular of disadvantaged communities as to how to exercise the rights contemplated under this Act. The Sub Section 1 (d) of Section 26 of the Act casts obligation on the Government to train State Public Information Officer of public authorities and produce relevant training material for use by the public authorities themselves. The Commission in its first and second report has suggested launching of a programme for training and awareness of the public for ensuring effective implementation of the Act. The response of the Government is as under:-

(i) Training Programme for SAPIOs/SPIOs/FAAs.

The State Government has designated the Haryana Institute of Public Administration (HIPA), Gurgaon as nodal agency in this regard. Training for the designated officers which includes SAPIOs/SPIOs and FAAs is being imparted on regular interval by HIPA as well as other training institutes like HVPNL Technical Training Institutes for power utility department and Haryana Institute of Rural Development, Nilokheri. Training to other employees working in various public authorities on RTI Act is also being imparted to sensitize them and to make them aware for dealing with the matters related to RTI.

(ii) Publication of directory and a user guide.

The Commission in its first and second report recommended that a guide in the official language should be compiled to assist the citizens in exercise of their right to access information under the Act. It was also recommended to prepare a directory of the designated SAPIOs/SPIOs and the FAAs. Now in the year of 2008 on the

recommendations of the State Government the HIPA, Gurgaon has published a directory of the designated officer alongwith a user guide on RTI and a ready reckoner on the Act in English and Hindi for the use of citizens of the State.

Chapter - 8

Recommendations for the reformation

The Right to Information Act casts responsibility upon both, the State Information Commission as well as public authorities, to suggest measures for effective implementation of the Act. Recommendations for reforms of the Commission to the State Government and the public authorities are as under:-

(i) Disposal of first appeals:-

Sub Section 1 of Section 19 of the Act provides for taking up a matter of first appeal before the Appellate Authority in the public authority, when the applicant is not satisfied with the information furnished by the State Public Information of the public authority. The First Appellate Authority is to dispose of the appeal within 30 days or within such extended period not exceeding a total of 45 days from the date of filing the appeal. In many cases, Commission has experienced that the First Appellate Authority either deal with the appeal late or does not dispose it off at all. This inevitably results in the delayed receipt of information or compels the applicant to take up the matter with the Commission in second appeal. This causes delay, additional expenditure and avoidable agony. The Commission, therefore, recommends providing training to officials concerned to improve their perception of and performance under the Act.

(ii) State Public Information Officers also need training to sensitize them to the needs of citizens. A massive round of training of SPIOs must therefore, be undertaken to enable them to discharge the responsibilities cast on them under the Act.

(iii) A large number of RTI requests concern failure of public authorities to provide delivery of services expected of them. The Commission is of the view that a part of suo-moto disclosure to be made under Section 4(1)(b) of the RTI Act such as functions, duties, procedures, accountability and norms set by the public authorities for discharge of their functions has all the characteristics of the citizen's charter.

- (iv) Citizen's charter should therefore form an integral part of the disclosure under Section 4(1)(b) so that the public is aware of the commitments of a public authority towards the citizens. All public authorities must, whenever necessary, revisit their procedures. Irksome procedure should be debated in public and made more citizens friendly. Citizen should be able to enforce the norms disclosed under the RTI Act whenever necessary.
- (v) Disclosures under Section 4 (1) (b) must contain all the details as required under the Act and these details should be periodically updated. Commissions should have the authority to penalize public authorities for inadequate disclosure or non-disclosure of details required under this Section.
- (vi) It should be obligatory for public authorities to publish these disclosures in their Annual Report.
- (vii) It is suggested that specific columns be included in the annual confidential reports of officers regarding their attitude towards implementation of the Act. The self assessment report of the SPIO and the First Appellate Authority must include information regarding number of applications/appeals received by them and their disposal.
